

**Servicing and installation**

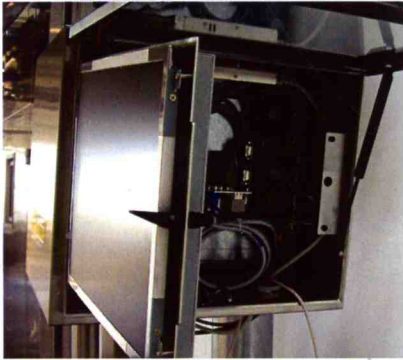

The design of the Selectic ViT terminal makes it extremely service-friendly and easy to install. Supply cable and various serial and Ethernet cables are led through a screw connection in the bottom of the cabinet.

Screen and touch are mechanically separated in order to obtain quick and easy servicing.

The terminal has SFK Easy-connect I/O-board with four serial ports for easy connection of scales, printers, scanners and additional equipment.

**Accessories**

As an accessory to the Selectic ViT terminals, we can deliver flexible, adjustable mounting stands with tilt fittings for terminal, printer shelf, keyboard holder and junction boxes for connection of Ethernet and CEE-plug.

**Technical specifications**

Screen: ..... 15" VGA – 1024 x 768 pix.  
Touch: ..... Resistive. Option: Without touch.  
CPU: ..... 1.5 GhZ  
RAM: ..... 1 GB  
Hard disk: ..... Min. 40 GB
