## PRESS RELEASE

31-10-2013

### **Stone Food Machinery Ltd- Makes awards shortlist**

Wexford-based **Stone Food Machinery Ltd.** has been shortlisted in three separate categories for the

#### **2013 National Procurement Awards.**

Waste Water Treatment Plants constantly present a range of different challenges. However, in a fresh approach to Inlet Screening, Val Stone, Managing Director of Stone Food Machinery Ltd., sold a simple concept to **EPS Water** for a unique and modular approach based on the following -

- Packaged system using a very small footprint compared to traditional methods.
- Easy & Fast installation and that could be movable at any stage in the future.
- Removal of heavy stones and grit before the Inlet Screens.
- High Screenings Capture Rate (SCR).
- Adequate capacity for the flow.
- Low maintenance.
- Automatic Storm Overflow.
- Screenings at exit in excess of 50% DS - and ready for incineration.
- The unit to be made entirely in Stainless Steel and to be visually appealing.

The system was installed at Dunmore WWTP in Galway and has been working extremely satisfactorily for almost 5 years with no problems of any kind. Subsequently, EPS decided to buy a larger unit which was installed and commissioned at Schull WWTP in West Cork. The results have been equally spectacular. Shortly a third and bigger unit will be installed in another Cork WWTP next year.

On foot of these projects, Stone Food Machinery - which markets and supplies the **MEVA** equipment range - was nominated for the **2013 National Procurement Awards.**

In considering the entries, the adjudicating panel shortlisted Stone Food Machinery in the categories for - *Best Supplier Award, Green Private Sector Procurement and Innovation in Private Procurement.*

The Awards will be announced on Wednesday, December 4th at the DoubleTree by Hilton Hotel, Burlington Road, Dublin 4, Ireland.
